DESCRIPTION:

Introducing the SkyView™ Tile by BIOS Lighting. SkyView™ represents the next generation of circadian lighting solutions designed to support the human circadian system during the daytime and evening hours. SkyView™ is a groundbreaking light that can deliver the targeted m-EDI of 250 lux on the vertical plane of the eye, as recommended by both the WELL Building Standard and RP-46-23 from the IES. It's the only luminaire on the market that provides truly immersive circadian lighting while meeting North America's most stringent energy codes. The SkyView™ Tile has two versions: Daylight 0-10 V or Daylight and Evening, which can be operated via 0-10 V or DALI protocol.

SkyView™ LIGHTING SYSTEM FEATURES:

- Offers the highest melanopic ratio of lighting on the market today: 1:1 in daytime mode
- Strengthens circadian rhythms through an electric circadian lighting system with patented GCO™ (Gradient Circadian Optimization) Technology, providing the health benefits of natural sunlight indoors
- Volumetric light distribution maintains uniformity ratios of <2:1
- Proven to boost mood, focus and alertness
- Declare label, Red List Approved
- 0.4 W/ft² on a 10 x 10 grid
- Quick Ship Available on the Daylight Version
- L90 at 60,000 hours
