

Experience SkyView™ Lighting— *Before You Commit*

Choosing the right lighting matters. That's why the **SkyView™ TryView** Program lets you experience the benefits of our SkyView™ lighting in your own space before making a purchase decision.

With TryView, you can install and evaluate SkyView™ Tile products in real-world conditions—so you and your team can personally experience the improved mood, focus, and alertness that comes from biologically optimized light, similar to the feeling of a clear blue-sky day outdoors.

SkyView™
by BIOS Lighting

How the TryView Program Works

- Try up to eight (8) SkyView™ Tile products in your space
- Products are provided at standard pricing with 90-day payment terms
- Install, use, and evaluate the lighting in your normal environment

Your Risk-Free Trial

- If you decide SkyView™ isn't the right fit, simply return the products within 90 days
- Returned products must be in working condition and original packaging
- If returned on time, you won't be charged

If the products are not returned within the 90-day period, the trial automatically converts into a purchase and the invoice becomes payable.

Why TryView?

- Experience the difference before you buy
- Build confidence in your lighting decision
- See how SkyView™ performs in your specific application
- Eliminate uncertainty around new lighting technology

Program Details

- Maximum of 8 SkyView™ Tile products per trial
- No additional discounts apply
- Program availability subject to approval

Ready to Try SkyView™?

Contact your SkyView™ representative to see if the TryView Program is right for your project and to get started.
